

Join the **Adult Summer Learning Program** at the
John Graham Public Library!
May 25 – August 10, 2019

REGISTER. You can register at the library or online at johngrahamlibrary.beanstack.org.

When you register, you earn a coupon for a free item from the Friends' book sale shelves!

SET YOUR READING GOAL. It can be a number of books or a number of minutes. All book formats are OK (print, audiobooks, and e-books).

- When you reach your goal, come to the library to claim your prize and enter the Grand Prize Drawing! You will also receive a free pass to a Hershey Bears game!

GRAND PRIZE DRAWING prizes include:

- Adult Prize Pack. Includes a John Graham Library Tote Bag, free books from the Friends of the John Graham Library's sale shelves, snacks, and other prizes!
- Gift Cards for Saylor's Market and Whistlestop Bookshop
- Pack of 5 Books (*Thomas Jefferson, The Freedom Writers Diary, The Best Team Wins, Save! America, and The Leadership Secrets of Santa Claus*)

**John Graham Library, 9 Parsonage St.,
Newville PA 17241 717-776-5900**

www.johngrahamlibrary.org

Earn chances in the Grand Prize Drawing by:

- Registering for the program
- Completing a row in "Library Bingo"
- Meeting your reading goal
- Attending one of the adult special events
- Completing a review

If you registered online, don't forget to pick up your materials at the library!

ADULT SPECIAL EVENTS

<p>May 30th, 2:00 pm</p>	<p>NASA Celebrating Apollo: Remembering the Past as We Prepare for the Future – Explore Lunar Science. Watch live and tweet questions! “The Moon is a treasure chest of science. The lunar samples returned during the Apollo Program dramatically changed our view of the solar system, and scientists continue to unlock new secrets...Hear about what we have learned and what we are hoping to discover about our world as we prepare to return to the Moon.”</p>
<p>June 13th, 2:00 pm</p>	<p>NASA Celebrating Apollo: Remembering the Past as We Prepare for the Future – Explore Humans in Space. Watch live and tweet questions! “Exploration is in our DNA – the desire to discover and inhabit distant worlds, whether across Earthly oceans or vast regions of space. It also is critical to the continuation of our species. Humanity must build a path to an Earth-independent existence. Come with us to the place where humans left Earth for another world and explore the challenges associated with human space flight.”</p>
<p>June 24th, 6:30 pm</p>	<p>Summer Book Talk – Tell us about your favorite summer read, and get suggestions from others!</p>
<p>June 27th, 2:00 pm</p>	<p>NASA Celebrating Apollo: Remembering the Past as We Prepare for the Future – Explore Rockets and Spacecraft. Watch live and tweet questions! “Learn about how NASA is going forward to the Moon to stay and on to Mars. Travel back in time as we look at the Saturn V rocket that allowed astronauts to place footprints on another world. Then we will take a look at NASA’s next big rocket, the Space Launch System, along with the Orion spacecraft and the mobile lunar command module Gateway, which will be our backbone for deep space exploration.”</p>
<p>July 11th, 2:00 pm</p>	<p>NASA Celebrating Apollo: Remembering the Past as We Prepare for the Future – Explore Moon to Mars. Watch live and tweet questions! “We will go to the Moon in the next decade in a way we have never gone before. We will go with innovative new technologies and systems to explore more locations across the surface than was ever thought possible. This time, when we go to the Moon we will stay. And then we will use what we learn on the Moon to take the next giant leap – sending astronauts to Mars.”</p>
<p>During July</p>	<p>See the John Graham Library’s space display!</p>
