### Construction Begun on Children's Learning Garden

If you have not been by the library recently, you might not realize that construction on the new Children's Learning Garden is underway! Demolition began in early March, followed later in the month with ground leveling, and laying the foundations for the programming porch and shed. Then in early April, construction workers began building the porch and shed walls and poured the concrete for the ADA ramp. The project is now scheduled to be completed in mid-July. Thank you to everyone who has contributed to the campaign to make this new addition to the Library possible!
