In memory of former Assistant Director, Public and Information Services, Dennis M. Lavery, the Bosler Memorial Library presents the Lavery Speaker Series. Every spring and fall as part of the Carlisle Institute, the library will feature one Lavery Series speaker.

Support for the Lavery Speaker Series will provide funds to allow the library to bring in speakers on a wide range of topics that would not otherwise be affordable in the library’s budget.

Stories of the Whiskey Rebellion
*With storyteller Alan Irvine*

Explore Pennsylvania’s Forgotten History as Storyteller Alan Irvine tells tales of the everyday folks and colorful characters who never get a mention in the history books, of the adventures and escapades often skipped over – stories of frontier fights, of canal boats and railroads, of musicians and dancers and rogues and more. Alan brings them all vividly to life.

Alan Irvine, a storyteller from Pittsburgh, Pennsylvania began telling stories over 40 years ago while working as a summer camp counselor, telling ghost stories in the cabin after lights out. Over the years, he has gathered a diverse repertoire of ghost stories, Celtic legends, folktales from around the world, American history and even Shakespeare. He performs at libraries, schools, universities, festivals, museums, and has released numerous award-winning CDs of his stories.

Marketing Yourself in a Tight Job Market
Tuesday, March 16 at 2pm

If you are now unemployed, or soon will be, due to the current pandemic, you need to revamp your job search strategies. Since many companies are downsizing or closing completely during this time of economic uncertainty, the competition for an ever-decreasing number of jobs can be overwhelming. Preparation of a marketing plan, complete with implementation tactics, is crucial. Competition can actually enhance, rather than diminish, your chances of landing a new job. Marketing is key. This webinar explains the basic principles of marketing and how to apply them to your job search.

This webinar is divided into two segments, a lecture and a question and answer period. The topics covered include: beginning the journey of self-discovery, assessing your talents and skills, applying the 4 Ps of marketing to your job search, accepting challenges, setting goals, and preparing psychologically for the interview and negotiation process.

How to Start a Freelance Business from Home
Tuesday, April 27 at 2pm

Be your own boss and work at home! Sounds great, doesn’t it? More than 600,000 people start businesses each year; unfortunately, approximately 20% of these businesses fail within two years, with that number rising to approximately 45% within five years. And those are pre-pandemic statistics! Do you want to avoid the pitfalls and increase your chances of succeeding? This seminar will help you meet the challenges of home-based business start-up and expansion.

This webinar is divided into two segments, a lecture and a question and answer period. The topics covered include: the initial steps in business formation and business registration, sales tax collection authorization, business checking account, financing, insurance, and the hiring of employees versus independent contractors.
