Spring 2022

Welcome to the Growing Learner's Library

The Growing Learner's Library Program Booklet is published in the spring and fall of each year. It contains information about the exciting activities for you and your family at the Library. Please keep the following in mind as you plan your library visits:

- **Youth Services programs are designed for attendance by both children and their adult parent/caregiver. Please be prepared to stay and enjoy the program with your child. Our attended child policy requires a parent/guardian or caregiver to accompany children under the age of 12 at all times.**
- When registering for programs that run for multiple weeks (indicated in the booklet), you are registering to attend each week of the program.
- If you register for a program and discover that you cannot attend, please contact the Youth Services Department at (717) 243-4642, ext. 2231 to be removed from our registration list so that others on the waiting list can attend. For multiple class programs, your children will get the most out of the program if they attend all of the classes. If you find you are unable to attend at least three or more of the classes, please consider registering at another time.
- We understand that sometimes a child needs a break. Please feel free to step out of a program if necessary and rejoin us later.
- Please be advised that the Library sometimes photographs group programs for use in the Library's publications and advertisements. Photos are the property of Bosler Memorial Library. If you would prefer not to appear in any group photo taken by the Library, please advise your program leader prior to the event.

Welcome to the New Youth Services!

Things are changing in Youth Services here at Bosler and not just with this new booklet! As the new Youth Services Coordinator, I am excited to make some changes that will make our programs and programming booklet more family friendly. My hope is that this new program schedule will be able to accommodate different schedules so that more families are able to experience what Bosler has to offer. I also want to be able to offer not just a wide range of program topics, but also programs that serve a variety of ages. My goal is that every child will be able to find a program that excites them no matter their age or interests. I hope that as you and your family explore this new booklet to discover our programs, you will find it easier to navigate and use. I look forward to seeing you in our programs!

Storytimes

Benefits of Storytimes: Reading to children helps to promote healthy brain development as well as grow their vocabulary and listening skills. Listening to stories can also improve their focus and concentration. Exploring different stories is a great way for children to explore the world around them in a safe and comfortable manner while also encouraging the use of their imagination. It allows them to discover new things and learn to ask questions about what they are seeing or hearing. This can also help build their social emotional skills by using stories to help process emotions or situations that they may be facing.

All of this starts as early as infancy, which is why we offer three different storytimes for different developmental stages. There is Baby Time for birth to 18 months, Toddler Tales for 19 to 35 months, and Preschool Storytime for 3 to 6 year olds. All of our storytimes use a mix of books, songs, rhymes, finger plays, and hands-on activities to help your child explore their world and discover new things. You can learn more about our storytimes and when they are offered further in this booklet.

Our regular storytimes have changed format, they will now be available all year long, every week! Check below to see the ages and days and times available.

These storytimes do not require registration, please drop-in!*

*Space is limited so be sure to arrive early

“With three curious kids, our family has been so grateful to have the children’s library at Bosler as a constant throughout the pandemic. Not only does the staff do an incredible job of curating great books that they make easy and safe to

borrow, but they began offering high quality and engaging activity kits in lieu of the in-person classes they usually offer. Bosler-centered days reliably occupy and delight our kids, even as we continue to social distance.” – Hanaa Rifaey
