

“With no Internet service at home, we checked out a Wi-fi hotspot from Bosler just before the lockdown. This turned out to be quite a blessing for my family since my older son was able to use the hotspot for schoolwork and Zoom sessions with Susquehanna Service Dogs, my younger son could use it for autism therapy, I was able to attend virtual legal hearings, and we could watch programs on Netflix since we don’t have cable TV at home either. It was a great resource for us to have at such an unpredictable time.” – *Connie W.*
