

LIBRARY FOUNDATION 2022

The Cumberland County Library System Foundation's 15th year of supporting the Library System and Cumberland County's public libraries saw things slowly returning to normal after a couple years of COVID. Meetings evolved into a hybrid format, and in July, Simpson Library hosted the Foundation Board of Directors for a tour and the board meeting. An exciting Library Foundation project in 2022 was establishing the Employee of the Month recognitions, extending appreciation to library staffers throughout the Library System.

2022 Cumberland County Library System Employees of the Month

Pat Sari, Simpson, July

Terry Reilly,
Fredricksen, October

Quin Hock,
Amelia Givin, December

Connie Kavulich, Bosler, August

Connie Weaver,
John Graham, November

Olivia Furhman-King, New
Cumberland, September

Foundation Board President Kevin Stoner accepts an EITC Donation Check from Nicolesha Monahan of Orrstown Bank

EITC Program

Since the Cumberland County Library System Foundation was approved as an Educational Improvement Organization (EIO) in 2009, companies approved for participation by Pennsylvania's Department of Community and Economic Development (DCED) have contributed a total of **\$212,725.**

EDUCATIONAL IMPROVEMENT PROGRAMS

TAX CREDITS SUPPORT SUMMER LEARNING & SCHOOL-YEAR STEM

As a Pennsylvania *Educational Improvement Organization*, the Cumberland County Library System Foundation is approved to receive donations from approved businesses in exchange for Educational Improvement Tax Credits (EITC).

EITC contributions help fund our two innovative educational programs—Summer Learning and School-Year STEM (Science-Technology-Engineering-Math). Children from all nine Cumberland County public school districts attend Summer Learning or School-Year STEM programs each year!

The Cumberland County Library System **Summer Learning Program** is a series of virtual and in-person events & activities designed to foster a love of reading and to develop or enhance reading, writing, and learning skills. Summer Learning Programs help stave off the “summer slide.” Participants not only perform better in the classroom and on standardized tests when they return to school in the fall, they develop positive lifelong Literacy skills like independent reading and visiting their local public library.

Cumberland County Library System’s **School-Year STEM** is a series of free virtual and in-person programs and activities designed to foster critical thinking, collaboration, group communication, and evidence gathering and evaluating skills while exploring science, technology, engineering, and math.

Thank you to these 2022 EITC Contributors, whose donations will support Summer Learning Program 2023
