PA FORWARD

We think Fredricksen Library is an amazing resource for the community, and we hope that you do too! One of the ways that we are looking to continue to grow our influence is through focusing our efforts on the five literacies of PA Forward: Basic, Information, Civic and Social, Financial and Health. Focusing on these literacies will help Fredricksen continue to serve the needs of the West Shore in the best way possible!

- **Basic Literacy** is reading and writing. It is the basic ideas that everything is based on. Increasing your Basic Literacy skills will let help you gain the building blocks to learn anything else you want.
- **Information Literacy** is understanding how information works in new formats. The internet has changed the way that we receive knowledge and having a good background of Information Literacy will allow you to understand how to get information out of it using different devices, and how to tell if the information you get is true or not.
- **Civic and Social Literacy** is understanding how to talk with others and understanding the basics of our government. Hearing your neighbor's opinions in a respectful manner allows our community to grow together, whether we agree about everything or not.
- **Health Literacy** is understanding how our medical system works so that you can make informed decisions about you and your families health.
- **Financial Literacy** is designed so that you can make informed decisions about your finances. This can be basic budgeting information, retirement planning or even investing classes.

PA Forward will help us make your life better, so stop by today and see how we can help!
